Passionate about crafting intuitive, accessible, and scalable web applications with a strong focus on UI/UX design. experienced in transforming complex requirements into clean, user-centered interfaces using modern front-end technologies, with a commitment to maintainable code and continuous improvement.

📁 Experience

- | | |
|---|--------------------------------------|
| Front-End Developer (Vue.js), PayamPardaz  | Jun 2025 – Present
Isfahan, Iran |
| <ul style="list-style-type: none">• Developed enterprise-grade front-end features for a Zero Trust security platform used by large organizations.• Built scalable and responsive interfaces using Vue.js to support complex access control and permission management systems.• Enhanced usability of security-focused workflows through thoughtful UI design and intuitive interaction patterns.• Collaborated closely with backend and product teams to integrate APIs and deliver reliable, maintainable features. | |
| Teaching Assistant at Software Engineering Course,
<i>Dr. MohammadReza Sharbaf, University of Isfahan</i>  | Feb 2025 – Sep 2025
Isfahan, Iran |
| Front-End Mentor and Course Designer, Quera  | Jun 2024 – Feb 2025
Tehran, Iran |
| <ul style="list-style-type: none">• Designed and updated various front-end courses, including HTML & CSS, Front-End Development, React, Advanced JavaScript, and TypeScript.• Mentored students, providing guidance and support to enhance their coding skills. | |
| Teaching Assistant at Web Programming Course,
<i>Dr. Ehsan Mahdavi, University of Isfahan</i>  | Feb 2024 – Jun 2024
Isfahan, Iran |
| UI/UX Design Intern,
<i>International Systems Engineering and Automation Company (IRISA)</i>  | Jul 2023 – Sep 2023
Isfahan, Iran |
| <ul style="list-style-type: none">• Designed a mobile app for buying and selling books using the design thinking process• Improved user engagement and satisfaction through iterative design and testing | |

🧠 Skills

Web Development

Vue.js, Vue Router, React.js, JavaScript (ES6+), TypeScript, GraphQL, HTML5, CSS3, TailwindCSS

Architecture & Concepts

Component-Based Architecture, SPA Development, State Management, Responsive Design

Testing Tools

Playwright, Cypress, Jest

UI/UX Design

Figma, PenPot, Photoshop

Tools & Collaboration

Git, GitHub, Agile/Scrum

Backend Familiarity

REST APIs, Django (Basic)

📁 Projects

- | | |
|---|---------------------|
| Hamsafar Landing Page | Mar 2026 – Apr 2026 |
| <ul style="list-style-type: none">• Designed and developed a landing page for a transportation services company specializing in corporate bus fleet management.• Focused on clear service presentation, responsive layout, and user-friendly navigation. | |

- Collaborated with stakeholders to present company services including fleet management, operational efficiency, and personnel transportation solutions.

Weather App

Jun 2025

- Developed a responsive weather application that retrieves real-time weather data from an external API.
- Implemented dynamic UI updates based on user input and location.

Karat , *Gamification-Powered Habit Tracker App*

Jan 2024 – Sep 2024

- Designed a user-friendly interface with Figma, incorporating gamification elements (streaks, rewards, badges, challenges) to enhance motivation and engagement.
- Conducted user research and usability testing, iteratively improving the design system and user flows for an optimized experience.

Order Me , *Ordering food web-app*

Dec 2023 – Jan 2024

- Developed the front-end interface for a food ordering web application using HTML, CSS, and JavaScript, ensuring a responsive and user-friendly design.
- Collaborated with team members to integrate front-end and back-end functionalities seamlessly, improving system efficiency and user satisfaction.

Faculty Staff Evaluation System

Jan 2023 – Jun 2023

- Designed and developed a web-based application for evaluating Computer Engineering faculty members, built as a single-page application (SPA) using React with a component-based architecture.
- Implemented state management and reusable UI components to improve maintainability.

Education

Bachelor of Science in Computer Engineering, *University of Isfahan* 

2020 – 2024

GPA: 18.55 / 20

Isfahan, Iran

Publications

Advanced Mutation Testing with Zero and Few-Shot Evaluation Using GPT-V4 

2025 9th International Conference on Internet of Things and Applications (IoT), Esfahan, Iran, Islamic Republic of

Certificates

- | | |
|---|--|
| • Quera Project-Oriented Course In Front-End Development With React  | • Quera Project-Oriented Course In Front-End Web Development  |
| • Quera Task-Oriented Course In Development With Typescript  | • Google UX Design  |
